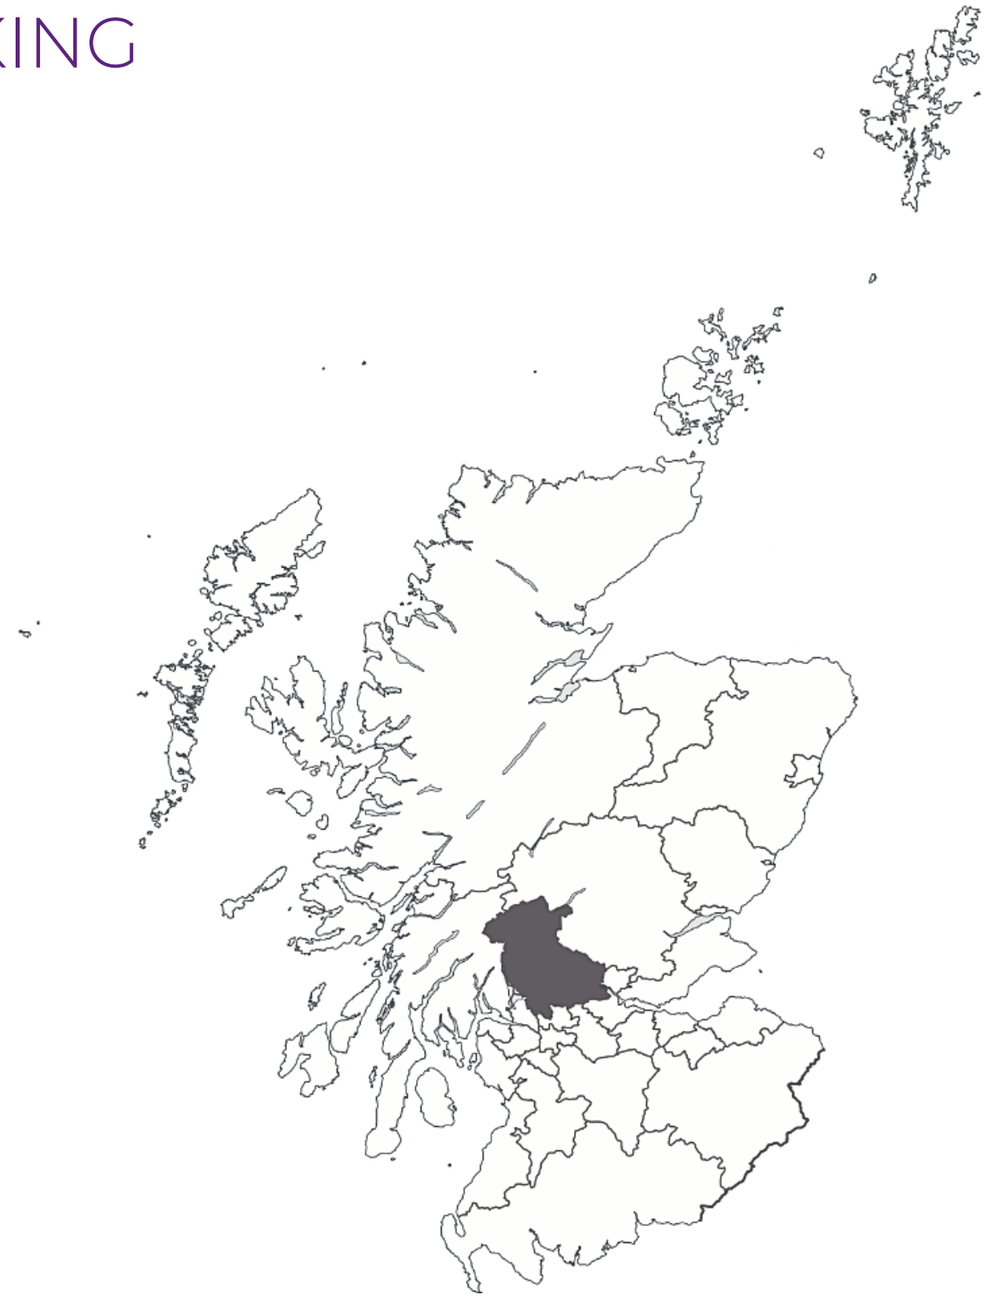
LOCAL GOVERNMENT BENCHMARKING FRAMEWORK REPORT



The Local Government Benchmarking Framework (LGBF) represents a collaborative endeavor by SOLACE (Scotland) and COSLA aimed at refining measurement methodologies and facilitating the comparison of data to efficiently allocate resources and drive progress. Over the past decade, this initiative has proven successful in promoting cooperation among all 32 Scottish councils, fostering mutual development and knowledge-sharing.

This report delves into the post-COVID landscape, characterised by the persistent efforts of communities and council services to navigate the pandemic's repercussions. Against this backdrop, new challenges have surfaced, notably the escalation of inflationary pressures and the onset of a 'cost of living crisis'.

In this dynamic scenario, the report shines a light on the commendable dedication and achievements of Stirling Council during this extraordinary period. Councils have exhibited remarkable adaptability, swiftly responding to evolving demands, sustaining essential services, and embracing innovative operational approaches. A key factor in this success has been the strengthened partnerships established with communities, alongside collaborations with the third and private sectors. These alliances have played a crucial role in safeguarding vulnerable populations and upholding community well-being amidst the myriad challenges encountered.

While upholding this localised approach, Stirling Council consistently reports its performance within regionally established public reporting frameworks, informed by the comprehensive insights of the LGBF. These insights are accessible to all citizens and users of council services, empowering them to hold local authorities accountable for their achievements and actively engage with local government to drive continuous improvement.

The evidence presented in the LGBF report is poised to play a pivotal role in scrutinising council services and is expected to foster learning and drive innovation.

ABOUT THIS REPORT

What is the LGBF?

The LGBF is a benchmarking instrument with a primary objective of empowering senior management teams and elected officials to scrutinise council services. Rooted in the collaborative efforts of SOLACE (Scotland) and COSLA it uses measurement standards and comparable data as catalysts for improving services.

The framework is a key component of each council's legal obligations for public performance reporting. It supersedes the preceding Statutory Performance Indicators (SPI) regimen, reflecting an evolved approach to measuring and enhancing council services.

Key points.

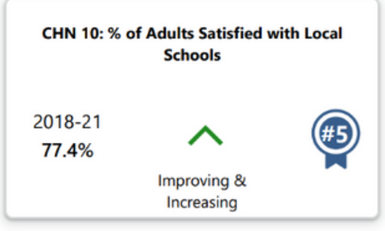
1. This report presents indicators grouped in an order that reflects the citizen's journey, creating a more meaningful experience both in terms of analytical insights and readability. The indicators are arranged starting from: early education, care, environment, economy, property & regulation, and corporate.

2. The LGBF Board has approved the inclusion of new indicators to enhance the benchmarking suite. The newly included indicators are:
Corporate Services

- CLIM 03: CO2 emissions from Transport per capita
- CLIM 04: CO2 emissions from Electricity per capita
- CLIM 05: CO2 emissions from Natural Gas per capita

Symbology

Below is an explanation of the symbology used in this report:



Value	Previous Value	Rank (FG)	Previous Rank (FG)	Rank (Scotland)	Previous Rank (Scotland)
93.4% ⌄	93.7%	2 ⌃	3	8 ⌃	10

2018-21 77.4%	Data collection period and result.
Improving & Increasing	Direction of travel (increasing/decreasing) and whether this means improvement (green) or deterioration (red).
⌃ — ⌄	Colour serves as an indicator of performance: Green signifies improvement, Grey denotes no change, and Red signals deterioration. Arrow direction signifies changes in value: an upward arrow indicates an increase, a horizontal line denotes no change, and a downward arrow signifies a decrease.
#5	Rank within Stirling Council's family group. NB. there are two family groupings - see next page.
FG	FG stands for Family Group. For more information, please refer to the next page.
Scotland	The national ranking illustrates where Stirling Council stands in relation to all other local authorities in Scotland. Please note that this may not always provide useful insights, as certain outcomes may involve comparisons that are not strictly comparable.

FAMILY GROUPS

Why do we use family groups?

To facilitate meaningful comparisons from the LGBF data, communities and councils are grouped into "family groups" based on similarities in the populations they serve (e.g., relative affluence or deprivation) and the type of area they serve (e.g., urban, semi-rural, rural). Comparing like with like allows for more useful insights and opportunities for learning and improvement.

These councils are grouped by the **type of population** they serve, e.g. level of deprivation and affluence.

Family Groupings for Children, Social Work and Housing indicators			
Family Group 1	**Family Group 2**	Family Group 3	Family Group 4
East Renfrewshire	**Stirling**	Falkirk	Eilean Siar
East Dunbartonshire	Moray	Dumfries & Galloway	Dundee City
Aberdeenshire	East Lothian	Fife	East Ayrshire
Edinburgh, City of	Angus	South Ayrshire	North Ayrshire
Perth & Kinross	Scottish Borders	West Lothian	North Lanarkshire
Aberdeen City	Highland	South Lanarkshire	Inverclyde
Shetland Islands	Argyll & Bute	Renfrewshire	West Dunbartonshire
Orkney Islands	Midlothian	Clackmannanshire	Glasgow City

Least deprived ⟷ Most deprived

These councils are grouped by the **type of area** they serve, e.g. rural, semi-rural and urban.

Environmental, Culture & Leisure, Economic Development, Corporate & Property indicators
