29.0% Decreasing  #8

Care at Home costs per hour have reduced in 2020-21 and there is an increase in the percentage of older people (65+) in the Stirling area receiving their long-term care needs at home. This is in line with the HSCP vision ensuring the The outcome indicators (SW04) below are normally reported every 2 years from the Scottish Health and Care Experience Survey commissioned by the Scottish Government. The most current data is for 2019/20. The HSCP continues to focus on the development of care and support which will offer individuals, their families and carers more choice and control.

SW 01: Older Persons (Over65) Home Care Costs per Hour

SW 04c: % of adults supported at home who agree that they are supported to live as independently as possible

SW 03a: % of people 65+ with long-term care needs who are receiving personal care at home
