% of carers who feel supported to continue in their caring role

2019-20 Declining/
29.0% Decreasing ↓ #8

Care at Home costs per hour have reduced in 2020-21 and there is an increase in the percentage of older people (65+) in the Stirling area receiving their long-term care needs at home. This is in line with the HSCP vision ensuring the provision of care at home to meet the long term needs of people aged 65+ remains a priority. The outcome indicators (SW04) below are normally reported every 2 years from the Scottish Health and Care Experience Survey commissioned by the Scottish Government. The most current data is for 2019/20. The HSCP continues to focus on the development of care and support which will offer individuals, their families and carers more choice and control.

Older Persons (Over65) Home Care Costs per Hour

Period	Value	Rank
2010-11	£ 21.99	#3
2011-12	£ 18.44	#2
