Local government benchmarking framework report.

The Local Government Benchmarking Framework (LGBF) represents a joint commitment by SOLACE (Scotland) and COSLA to develop better measurement and comparable data to target resources and drive improvement. Over the past ten years, this approach has been successful in supporting all 32 Scottish councils to work and learn together.

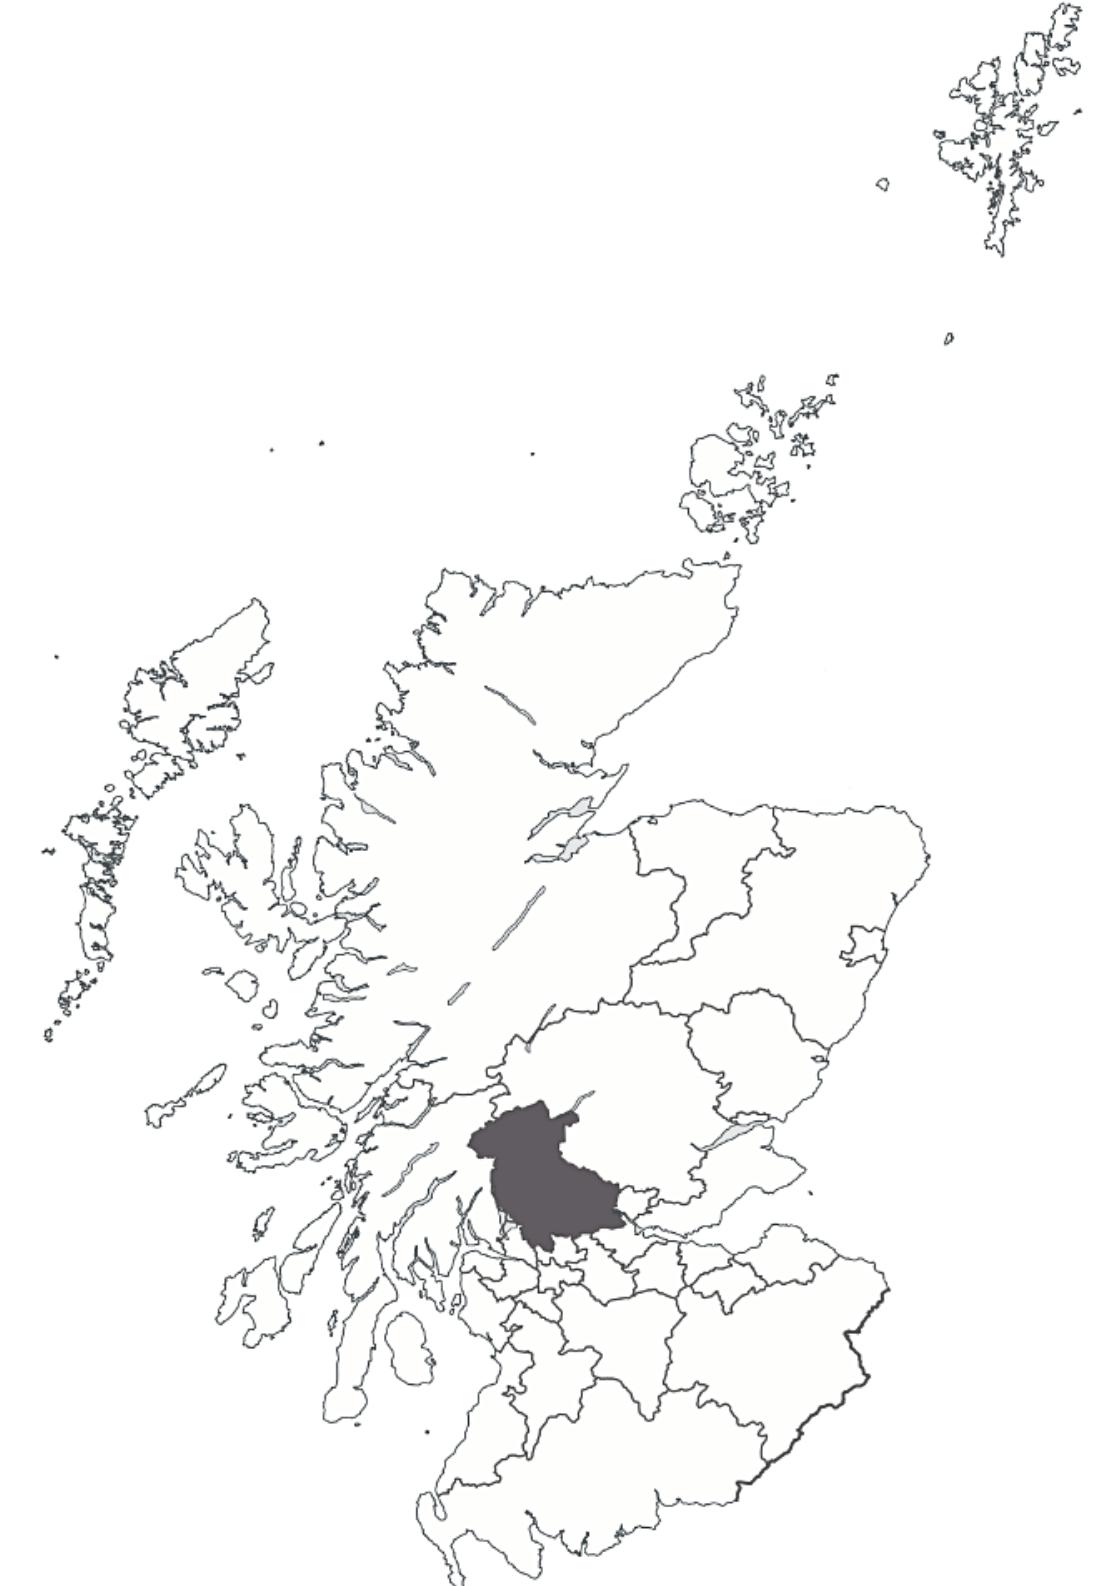

COVID-19 has altered the landscape and fundamentally affected Local Government services and the lives of the communities it serves. Stirling Council has been at the forefront of the initial and ongoing response; creating new services at pace, working in partnership with communities as well as the third and private sectors, helping to protect those who are vulnerable, and maintaining community wellbeing.

Communities were affected by the pandemic in different ways and councils' responses to COVID-19 have exemplified the importance of local solutions to local needs and issues. Lack of uniformity is an inevitable function of local democracy reflecting the different needs and priorities of local communities. Each council has developed the structure and service arrangements it believes are the most appropriate and cost-effective to support its local community.

Stirling council does however report our performance locally within locally developed and agreed public reporting frameworks, which draw upon LGBF information. This information is available to all citizens and users of council services so that they can hold councils to account for what is achieved on their behalf and ask questions of Local Government to promote improvement.

Given the pressures we face as we emerge from the pandemic, it will be more important than ever for councils to work together to evaluate and learn from their response to inform the future design, delivery and shape of services. The evidence base provided by the LGBF will be key in helping authorities explore and understand the impact of different ways of working and models of delivery, and to help ensure we do not lose the learning and innovation which has emerged during these exceptional times.

The driving force behind this work is, and will always be, to improve the lives of people in communities across Scotland. We believe that effective public services contribute to both individual and community quality of life and the LGBF is an increasingly important element of the local intelligence necessary to achieve this vision. With the financial pressures, growing demand on services, and now the profound effects of COVID-19, there has never been a greater requirement for working with and learning from each other.

ABOUT THIS REPORT

What is LGBF?

The LGBF is a high-level benchmarking tool that aims to assist senior management teams and elected members in asking key questions about council services. It reflects SOLACE (Scotland) and COSLA's commitment to developing better measurement and comparable data as a catalyst for improving services, targeting resources to areas of greatest impact, and enhancing public accountability.

The report's purpose is to identify variations in cost and performance between similar councils and engage in exploring why these variations are happening. The LGBF allows councils to compare their performance against a range of efficiency, output, and outcome indicators that cover all areas of local government activity. The framework has eight years of data and is part of each council's statutory requirements for public performance reporting, replacing the previous Statutory Performance Indicators (SPI) regime.

The LGBF adheres voluntarily to the high standards for statistical rigor set out in the three pillars of the UK Statistics Authority Code of Practice – trustworthiness, quality, and value.

Key points.

1. This report presents indicators grouped in an order that reflects the citizen's journey, creating a more meaningful experience both in terms of analytical insights and readability. The indicators are arranged starting from early education, followed by care, environment, and so on.

2. The LGBF Board has approved the inclusion of new indicators to enhance the benchmarking suite. The newly included indicators are:

Children's Services: CHN 24 - Percentage of children living in poverty (After Housing Costs)

Economic Development: ECON11 - Gross Value Added (GVA) per capita, ECON12a - Claimant Count as a percentage of Working Age Population, and ECON12b - Claimant Count as a percentage of 16-24 Population.

Symbology

Below is an explanation of the symbology used in this report:

CHN 02: Cost per Secondary School Pupil		Value	Previous Value	Rank (FG)	Previous Rank (FG)	Rank (Scotland)	Previous Rank (Scotland)
1	2020-21	£ 7,409	17.3%	8	7	27	8
3	Improving & Decreasing		16.4%	5	6a	28	28
2	#4						
1	2020-21	£7,409					
2	Improving & Increasing						
3							
4	#4						
5							
6 (a/b)							
7	FG						
8	Scotland						

FAMILY GROUPS

Why do we use family groups?

To facilitate meaningful comparisons from the LGBF data, communities and councils are grouped into "family groups" based on similarities in the populations they serve (e.g., relative affluence or deprivation) and the type of area they serve (e.g., urban, semi-rural, rural). Comparing like with like allows for more useful insights and opportunities for learning and improvement.

These councils are grouped by the type of population they serve, e.g. level of deprivation and affluence.

Family Groupings for Children, Social Work and Housing indicators			
Family Group 1	Family Group 2	Family Group 3	Family Group 4
East Renfrewshire	Stirling	Falkirk	Eilean Siar
East Dunbartonshire	Moray	Dumfries & Galloway	Dundee City
Aberdeenshire	East Lothian	Fife	East Ayrshire
Edinburgh, City of	Angus	South Ayrshire	North Ayrshire
Perth & Kinross	Scottish Borders	West Lothian	North Lanarkshire
Aberdeen City	Highland	South Lanarkshire	Inverclyde
Shetland Islands	Argyll & Bute	Renfrewshire	West Dunbartonshire
Orkney Islands	Midlothian	Clackmannanshire	Glasgow City

These councils are grouped by the type of area they serve, e.g. rural, semi-rural and urban.
