2020-21 Declining/ 4.9% Increasing

#1

Participation rate for 16-19 year olds (per 100)

2020-21 Declining/ 93.7% Decreasing

#3

Stirling's overall data in this section is positive, comparing well both with comparator Councils and nationally. This is positive at a Council wide level. Targeted work continues in locality action plan areas to reduce the socio economic gap between these communities and the Council wide position.
