> 2019-20 Improving/ 73.7% Increasing

% of carers who feel supported to continue in their caring role

2019-20 Declining/ 29.0% Decreasing

Care at Home costs per hour have reduced in 2020-21 and there is an increase in the percentage of older people (65+) in the Stirling area receiving their long-term care needs at home. This is in line with the HSCP vision ensuring the provision of care at home to meet the long term needs of people aged 65+ remains a priority. The outcome indicators (SW04) below are normally reported every 2 years from the Scottish Health and Care Experience Survey commissioned by the Scottish Government. The most current data is for 2019/20. The HSCP continues to focus on the development of care and support which will offer individuals, their families and carers more choice and control.

Period	Value	Rank
2010-11	56.4%	#5
2011-12	59.6%	#5
2012-13	63.5%	#4
2013-14	62.7%	#5
2014-15	65.5%	#3
2015-16	65.4%	#4
2016-17	62.2%	#5
2017-18	65.3%	#5
2018-19	65.4%	#2
2019-20	65.6%	#2
2020-21	67.2%	#2
