LOCAL GOVERNMENT BENCHMARKING FRAMEWORK REPORT

The Local Government Benchmarking Framework (LGBF) is a nationally co-ordinated initiative developed by SOLACE (Scotland) and COSLA, and supported by the Improvement Service. It provides a consistent and transparent approach to benchmarking across all 32 Scottish councils. Now well into its second decade, the LGBF continues to play a vital role in supporting evidence-based decision-making, enabling councils to compare performance, identify good practice, and drive improvement.

This year's report reflects the continuing evolution of local government in the post-pandemic period. While communities and public services have shown resilience in adapting to the long-term impacts of COVID-19, the operating environment remains challenging. Rising inflation, persistent workforce pressures, and the ongoing cost of living crisis have placed sustained strain on services and resources.

Against this backdrop, Stirling Council remains focused on delivering high-quality, person-centred services that meet the needs of our diverse communities. The Council has demonstrated adaptability and innovation in responding to complex and shifting demands—sustaining core services while also piloting new approaches and delivery models.

Partnership working continues to be a cornerstone of our approach. Strong and responsive relationships with local communities, third sector organisations, and private sector partners have enabled us to target support where it's needed most, protect vulnerable residents, and build community resilience.

Our commitment to transparency and accountability is underpinned by our ongoing participation in the LGBF. The framework provides robust and accessible data that helps local residents, stakeholders, and decision-makers understand our performance within the wider national context. This evidence not only helps track progress and identify areas for development, but also supports shared learning and innovation across the sector.

As Stirling Council looks ahead, the insights provided through the LGBF will remain central to shaping priorities, informing resource allocation, and ensuring continuous improvement in the delivery of public services.

About This Report

What is the LGBF?

The LGBF is a benchmarking instrument with a primary objective of empowering senior management teams and elected officials to scrutinise council services. Rooted in the collaborative efforts of SOLACE (Scotland) and COSLA it uses measurement standards and comparable data as catalysts for improving services.

The framework is a key component of each council's legal obligations for public performance reporting. It supersedes the preceding Statutory Performance Indicators (SPI) regimen, reflecting an evolved approach to measuring and enhancing council services.

Key Points

1. This report presents indicators grouped in an order that reflects the citizen's journey, creating a more meaningful experience both in terms of analytical insights and readability. The indicators are arranged starting from: early education, care, environment, economy, property & regulation, and corporate.
2. This report is run at a point in time. Each indicator will be as up to date as the data published by the Improvement Service at that time.

Symbology

Below is an explanation of the symbology used in this report.

Value	Previous Value	Rank (FG)	Previous Rank (FG)	Rank (Scotland)	Previous Rank (Scotland)
83.3%		1	1	2	4
^		—		^	

Item	Explanation
83.3% 2024-25	Data collection period and result.
Improving & Increasing	Direction of travel (increasing/decreasing) and whether this means improvement or deterioration.
^ — ✓	Green arrow: Ranking/Performance improved compared to before. Gray line: Ranking/Performance stayed the same as before. Red arrow: Ranking/Performance deteriorated compared to before.
#1	Rank within Stirling Council's family group. NB. there are two family groupings - see next page.
FG	FG stands for Family Group. For more information, please refer to the next page.
Scotland	The national ranking illustrates where Stirling Council stands in relation to all other local authorities in Scotland. Please note that this may not always provide useful insights, as certain outcomes may involve comparisons that are not strictly comparable.

FAMILY GROUPS

Why do we use family groups?

To facilitate meaningful comparisons from the LGBF data, communities and councils are grouped into "family groups" based on similarities in the populations they serve (e.g., relative affluence or deprivation) and the type of area they serve (e.g., urban, semi-rural, rural). Comparing like with like allows for more useful insights and opportunities for learning and improvement.

These councils are grouped by the **type of population** they serve, e.g. level of deprivation and affluence.

Family Groupings for Children, Social Work and Housing indicators			
Family Group 1	Family Group 2	Family Group 3	Family Group 4
East Renfrewshire	Stirling	Falkirk	Eilean Siar
East Dunbartonshire	Moray	Dumfries & Galloway	Dundee City
Aberdeenshire	East Lothian	Fife	East Ayrshire
Edinburgh, City of	Angus	South Ayrshire	North Ayrshire
Perth & Kinross	Scottish Borders	West Lothian	North Lanarkshire
Aberdeen City	Highland	South Lanarkshire	Inverclyde
Shetland Islands	Argyll & Bute	Renfrewshire	West Dunbartonshire
Orkney Islands	Midlothian	Clackmannanshire	Glasgow City

Least deprived

Most deprived

These councils are grouped by the **type of area** they serve, e.g. rural, semi-rural and urban.

Environmental, Culture & Leisure, Economic Development, Corporate & Property indicators
